I had enough  
This silly things wont do me any good  
I lied before but only when I have to  
Leap into another phase  
You swore it would be ok

What happens next  
This overrated chapter prolonged  
Whatever happen could have not  
Then again what are we suppose to do  
Leap into another phase  
You swore it would be ok

Leap into another phase  
You swore it would be ok

Could there be an easy way  
To feel joy, hate sorrow love  
And live a life of emotions  
Emotions (5x)

Ooooo oooo oo

I put myself on this thin wire  
I need you I need you to hold my hand  
And pull me out from the sorrow  
My lover  
My best friend  
My heart

Emotions(6x)  
Ooooo oooo oo
