There's a hand that reaches  
Reaches from a heart  
One that isn't able  
One that doesn't know just where to start  
So it starts with the hands the one to tremble  
Gives itself away  
Strains to find a gesture  
Something that the heart can easily say

Take the hand  
It would mean so much to the heart to touch you  
Play the part

Would you hold the hand, warm the heart  
And take the heart that's waiting  
Open it and find  
There's a heart that's reaching  
There's a heart that's reaching from inside

Take the heart that's waiting  
Open it and find  
There's a heart that's reaching  
There's a heart that's reaching  
There's a heart that's reaching from inside
