[Heartfire]

Sprout from the dirt: A spawn of the sickest treachery.
My fingers are coffins, spreadingly forcefully the
unborn seed.

Arise from your weeping; entrust in me,
I am the Bringer of the Black Dawn! (The Sun forever
gone.)

Swallow the shards of dreams: regurgitate nothing.
Time drips into lifelessness by the order of the ebon
hand.

Birthered under my command, no rest for the wicked,
Carry out my black desires: spread our sickness,
across this EARTH.

[Endsender]

Ungodly soldiers of hate... Legions of undead:
"March forth and let the blood fly. Kill..." (never
wondering why.)
What destroyed my faith in this world? What have I
become inside?

[Graey]

Witness the dawn of a new hatred, for a worthless
hope,
And a dwindling purpose, I will never be the same.
Breathing blackness as I re-create the paranoia that is
my entire life.
I am withering to a helpless state of mind: I can't cry
when it's raining. I can't scream when I'm breathless.

[Look]

Leave this all behind: Press forward into a new day.

[See]

Witness the dawn of a new confidence, for a hope
worth fighting for, and a purpose...
All My Own.

[Speak]

March forth and let the blood fly, I am the Bringer of
the Black Dawn.
Arise from your weeping; Entrust in me. We will force

our enemies to swallow their dreams.
