I'm living here, the hours passing by
I want to be the one
The way you've planned for me

Want to be
Close to you
Drink the leaving wine
My Lord when you're around I know I'm feeling fine
I want to honour you
Share the love you gave to me
I want all my friends
Taste the real fruit

Taste the real fruit of love

Leave the burdens behind
Taste the real fruit of love
Leave the burdens behind

He's calling you to enter through the door
He is the living hope where darkness can not reach
He is the tree of life where you and I can rest our souls
He is the truth who holds the keys
