Save us from the everlasting pain  
The kids are playing in the yard again  
The kids that we will be and that we've been  
Chorals yes our chorals in the rain

And all the heros fly  
And all the maidens cry  
Within a secret voice  
Below the city noise

Girls and boys

Jonny is a sailor out at sea  
Jeannie lady is a beautyqueen  
Here we are where we have always been  
Chorals yes our chorals in the rain

And all the heros fly  
And all the maidens cry  
Within a secret voice  
Below the city noise

Girls and boys

And all the heros fly  
And all the maidens cry  
Within a secret voice  
Below the city noise
