Whereâre you dancing witches
Met a man who told me that
Youâre down with the fishes
Now here I am and sit and beg

Give me pain and give me mercy
I am hungry I am thirsty
Iâm here with the other folks who
Make love in the ruins of this town

Whereâre you dancing witches

Whereâre you dancing witches
Met a girl with eyes like stars
And a tale she told me, now
I am left out in the dark

Give me pain and give me mercy
I am hungry I am thirsty
Iâm here with the other folks who
Make love in the ruins of this town

Whereâre you dancing witches

Slide, slide, slide
Now wonât you break the spell tonight
All changes in the neonlight
All that changes in the neon twilight tonight

Whereâre you dancing witches
