Conceptual Love

There's no high alone
Can't get myself elevated
I don't get these fools so I'm waiting up on you
I wish I want, you to come my way talk
My trapped minds watching absurdity ensue

My eyes can't see
My mind is weak
I got plenty of issues
My hands are tied
I'm stuck 9 to 5
But I'm dreaming up one like you

Chorus
In my mind
Said I think about you all the time (x2)

Baby I can't wait to get up off this no-where plane
I need you now to help me make it through
Dreamlove,
Undercover thoughts aren't enough
What I need right now is just one touch
From you my concept love

My eyes can't see
My mind is weak
I got plenty of issues
My hands are tied
I'm stuck 9 to 5
But I'm dreaming up one like you
