"Changed My Mind"

I don't wanna be an old man on the sea-cursing the
world not a soul at my wake
I don't wanna be a faded dead memory-but everything
that we are burns away eventually
What a wasstee
And just when my neck slips through the noose I tied...
Oh... I change my mind. what a beautiful life-what a
beautiful life we've got here
Oh... I change my mind. such a beautiful girl-what a
beautiful world we've got here
I don't wanna know where everyone's gonna go-just
leave out the end...
And just when my neck slips through the noose I tied...
Oh... I change my mind. what a beautiful life... what a
beautiful life we've got here
Oh... I change my mind. such a beautiful girl... what a
beautiful world we've got here
Staring straight down at the edge of the world-ready to
let go
