dum de de dum de dum  
de dum dum hey!

don't you know that i am a rager?  
pull me close & we'll catch the vapor,  
tough damping house elevator,  
strobe light hold tight, elevate her!

99 balloons in the air,  
drum out, without a chair,  
shotgun cause you take me there.  
cause you  
take  
me there!

take me down, take me down higher!  
make your heart burn like a fire!  
take me down, take me down higher!  
dum de de dum de dum  
de dum dum oh!

take me down, take me down higher!  
make your heart burn like a fire!  
take me down, take me down higher!  
dum de de dum de dum  
de dum dum hey!

take the train, the it downtown,  
you know we're ready, you hear the sound.  
it's like crack for kids, off the wall.  
just let it rain when it's 'bout to fall.

99 balloons in the air,  
drum out, without a chair,  
shotgun cause you take me there.  
cause you  
take  
me there!

take me down, take me down higher!  
make your heart burn like a fire!

take me down, take me down higher!  
dum de de dum de dum  
de dum dum oh!

take me down, take me down higher!  
make your heart burn like a fire!  
take me down, take me down higher!  
dum de de dum de dum  
de dum dum hey!
