"Kingston Forever"

Visit "[Kingston Forever](#)" on [MotoLyrics.com](#)

Keep me strong,
Say the things I want to hear.

It's not the pain,
But the loneliness I fear

So fight it off with all the things you'll say
And just your being here.

Cause if's laughter is the best medicine
Then you're the cure.

Occupy my mind with something new.
It's odd that somethings so natural to me
Can mean so fucking much if the time is right.

Give it time. Give it air.
Room to breathe. just don't leave

Cause if's laughter is the best medicine
Then you're the cure.

Occupy my mind with something new.
It's odd that somethings so natural to me
Can mean so fucking much if the time is right.

Being forced to stay awake
Or put silently to sleep

I know it'd be easier to lose
But if you were to make me choose
