Visit "[Christmas With My Baby](#)" on MotoLyrics.com

You know what? Christmas is the time when you wanna
be with the ones you love, you know
Or even maybe the one you love, so let me try out
something

Oh dear, I know that I've been working
Too many nights for you to be alone again
Hold close, back and forth on e-mail
My , calls and now I'm on the road again
The phone , this Christmas with my girl
The fire's burning so , in the air
I just wanna be home, I don't wanna be alone, this
Christmas

Spend the night of Christmas without my baby
I can't take another Christmas cause girl you're my lady
And I wanna come home, girl
I can't spend another Christmas without my baby, oh no
I can't take another Christmas, cause girl you're my
lady
And baby I'm coming home, and baby I'm coming
home
So baby I'm coming home

I can't wait to walk to the door,
just in time to stop you from being lonely
No one to like so I got everything you want it
And all I want it is you with a bow on ,
It's like the dream but the present's the bed
Hanging like some candy canes everywhere
, gotta come home, we don't have to be alone, this
Christmas, no
Spend the night of Christmas without my baby
I can't take another Christmas cause girl you're my lady
This meaning you, I can't spend another Christmas
without
my baby, with you baby
I can't take another Christmas cause girl you're my
baby
You know what, and baby I'm coming home, and baby
I'm coming home

So baby I'm coming home, so baby just me and you

Sipping some wine, sitting by the fire, wouldn't it be nice?

Just me and you, listening to music, set the mood right

I know just what you like girl, just me and you

, friends, celebrating days in Christmas time again,

girl, just me and you

You're the best present, baby you're a blessing, girl

just let it snow

Just me and you, sled bells ringing and my heart is

singing out to you

Baby, just me baby

I can't take another Christmas cause girl you're my

baby

I can't spend another Christmas without my baby, girl

you're my baby

I can't take another Christmas cause girl you're my lady

And baby I'm coming home, so baby I'm coming home,

Merry Christmas

Baby, Merry merry Christmas, merry merry Christmas,

merry merry Christmas

And I love you

Merry Christmas girl, merry Christmas

Sled bells ringing and my heart is singing out to you,

come on.

Thanks to Andrei
