Drop it, drop it, drop it, drop it, drop it, drop it, drop it  
Drop it, drop it, drop it, drop it, drop it, drop it, drop it  
I tell her drop it, drop it, drop it, drop it and give it up  
Tell her drop it, drop it, drop it, drop it and give it up  
I tell her drop it, drop it, drop it, drop it and give it up  
I tell her drop it, drop it, drop it, drop it and give it up

I told her stop it, drop it, in a polo t and I rock it  
You see the girl I'm with is chocolate  
And her friend is on that vodka  
And they drunk, rough sexing  
I get head like a .. pour slow  
, I lean back and turn slow  
So cold, my mike, might need a fur coat  
I love love and I hate hate  
Stand on my word I be 6 8  
, out of mixtape, die real, shit straight

Benz, biz paid  
Been , since the 10th grade  
, louies on, , other louies tied up  
And I never fuck with you  
You'll never have ne tied up

I tell her drop it, drop it, drop it, drop it and give it up  
Tell her drop it, drop it, drop it, drop it and give it up  
I tell her drop it, drop it, drop it, drop it and give it up  
I tell her drop it, drop it, drop it, drop it and give it up X

I tell drop it, yeah, how about it?  
Shawty burning up like a pound of Wasabi  
Magic city, know how to drop it  
Sliding down the pole, then she pop it  
She's incredible, so delicious  
Wanna take a bite, she's the sweetest , kisses  
Drop it low, then bring it back up  
Model after model, tell her bring another model  
We in this baby you already know  
Straight legs bend over touch your toes  
You wanna get away, I'ma let you drive this rocket
