Just cruising, by my lonesome, through the city
Bumping my own ...
It's on me, trying to make it all, you
Gotta hit it on plane main, like a drive through
She's calling, I pick up the phone, girl give me 10
minutes
She got me like whoa, we can go on weekend,
Tell me when you finish
That good love, good love, yeah,
Only feel good, she bout to blow my mind
She knows what I like, Shawty's all so good to me
She ... like a drum, she can't get enough of me
Voices all through the house, every time she calls
I swear, I swear, Shawty is prepared for
It's hammer time time, hammer time time, hammer
time
Whoa, I think she ready for hammer time time,
hammer time time, hammer time

She always wants me, for a little over time
Throw it in over drive, hop in the fast lane, see you in 5
She sound whatever you want
I know she'll give it time after time
And I swear that I'm still waitin

She's calling, I pick up the phone, girl give me 10
minutes
She got me like whoa, we can go on weekend,
Tell me when you finish
That good love, good love, yeah,
Only feel good, she bout to blow my mind
She knows what I like, Shawty's all so good to me
She ... like a drum, she can't get enough of me
Voices all through the house, every time she calls
I swear, I swear, Shawty is prepared for
It's hammer time time, hammer time time, hammer
time
Whoa, I think she ready for hammer time time,
hammer time time, hammer time

Baby I want you and you want me too

You know you want it girl
Girl it's raining, I'm waiting, about to put this thing on
you
Whoa, I can't wait to touch it, love it when we fucking
You be coming often girl
Whoa, it's hammer time baby, I'm nailing that body
So you can hang it, hang it up all night

She knows what I like, Shawty's all so good to me
She ... like a drum, she can't get enough of me
Voices all through the house, every time she calls
I swear, I swear, Shawty is prepared for
It's hammer time time, hammer time time, hammer
time
Whoa, I think she ready for hammer time time,
hammer time time, hammer time
When we be making love, it's whoa, whoa, hammer
time time, ... to quit baby
Hammer time time, oh I bet you're ready for this, yeah.
