I memorized the words  
I'm gonna say to you  
To tell you that  
I just don't love you anymore

But though my lines  
Have been rehearsed so well  
They slip my mind  
When you walk the door

Cause when I see your face, I realize  
No matter how you make me blue  
I just can't say goodbye to you  
When I'm alone, I say  
I can't go on this way

A fool could see  
You really love another guy

But when I hear you say  
That it's me you love  
My foolish heart believes  
It's not another lie

'Cause when you're in my arms  
My heart forgets all the times  
You've made me blue, ooh, ooh  
And I can't say goodbye to you  
No, I can't say goodbye to you
