Nothing looks as good as your clothes, on the floor
Nothing looks as good as your skin, on me girl
Nothing compares to the look in your eyes
We make love, until daylight
Baby you know I'm a fiend, I just gotta tell you one
thing
Don't bring your clothes, no need to pack
Don't bring you phone, you won't need that
There's no exception girl, I just wanna
I just wanna, I just wanna see you naked, naked,
naked, oh

Girl you know my body's calling you, to my bed, oh
yeah
Just the smell of your perfume
When we go, we go, go, hard
Touching every part of you
Baby you know I'm a fiend, I just gotta tell you one
thing
Don't bring your clothes, no need to pack
Don't bring you phone, you won't need that
There's no exception girl, I just wanna
I just wanna, I just wanna see you naked, naked,
naked, oh

Listen to my melody
Girl I want you now, got me feeling like I'm such a fiend
About to take you down, going down, it's going down
Down, going down, it's going down
Can't nobody stop us girl

Don't bring your clothes, no need to pack
Don't bring you phone, you won't need that
There's no exception girl, I just wanna
I just wanna, I just wanna see you naked, naked,
naked, oh
I just wanna, I just wanna see you naked, naked,
naked, oh.
