You're super fine yeah you know
I'm tryin put you on my ..
I'm tryin to keep you on my side
take..is good for you

Pre Chorus:

so put this robo, I lie it
turn the body over
the temperature is rising
uh girl I got the remedy
take a little sip girl tell me what you see

Chorus:

all you need is a dose on me
in the morning time, at the end of the night
all you need is a dose on me
you can call on me vitamin B
one dose, yeah
one dose, yeah
one dose, yeah
one dose yeah

I swear you make my life hoe
I'm the right can you be my trouble
I'm just a young man looking for love
not the type to be searching in the club

Pre Chorus:

so put this robo, I lie it
turn the body over
the temperature is rising
uh girl I got the remedy
take a little sip girl tell me what you see

Chorus:

all you need is a dose on me
in the morning time, at the end of the night
all you need is a dose on me
you can call on me vitamin B
one dose, yeah
one dose, yeah

one dose, yeah
one dose yeah

call on me vitamin B, one dose, one dose
yeah, when you need to fix it
you can come and take it one dose, one dose uh
'cause ain't no other crap like mine
when you leave here you go shine
you go..to all in your friends
and you come..

2 x one dose, yeah
one dose, yeah
one dose, yeah
one dose yeah

[Chorus:]
