"Only One"

Visit "[Only One](#)" on MotoLyrics.com

Baby, I'm so glad I found you
Now I'll never let you go
Cause wouldn't start without you, girl
Let me, build my world around you
Give you just what you need, boo
Promise I won't play no games

No more party, party for me
No more drinky, drinky for me
I'm going to make you the only one, yeah...
No more chasing away the round things
No more running around sneaky
I'm going to make you the only one
For me, for me
I'm going to make you the only one
(I'm going to make you the only one, girl)
I'm going to make you the only one
(I'm going to make you the only one)

When we, make love this like a dream
Such a beautiful scene
Don't have to work for anything, no...
Heaven, gave me what I pray for
And I thank god each day for
Enjoying life beside you, girl...

Let me sing to you, let me sing tweek-toe-tweek
Let me fall to my knee
Cuz you so sexy
Atleast girl
Never leave, never leave
That's so please
I never knew, but now I see
You were made for me

(I found you...)
No more party, party for me
No more drinky, drinky for me
I'm going to make you the only one
(I'm going to make you the only one...)
No more chasing away the round things
No more running around sneaky

I'm going to make you the only one
For me, for me
I'm going to make you the only one
(I'm going to make you the only one)
I'm going to make you the only one

I'm turning my place right in
As we begin, right here, right now, for sure
Girl you know, you turn my life around
The way I go, get wide, get long, to you

You make me wanna sing...
Let me sing to you, let me sing tweek-toe-tweek
Let me fall to my knee
Cuz you so sexy
Atleast girl
Never leave, never leave
That's so please
I never knew, but now I see
You were made for me

(No more party... baby)
No more party, party for me
No more drinky, drinky for me
I'm going to make you the only one
(Make you the only one... for me)
No more chasing away the round things
No more running around sneaky
I'm going to make you the only one
For me, for me

No more party, party for me
No more drinky, drinky for me
I'm going to make you the only one
(I'm... going... to...)
No more chasing away the round things
No more running around sneaky
I'm going to make you the only one
For me, for me
I'm going to make you the only one
(I'm going to make you the only one)
I'm going to make you the only one
I'm going to make you the only one
I'm going to make you the only one
