

Bobby V **"Our Love"**

Visit "[Our Love](#)" on MotoLyrics.com

When ever I think about you baby,
I thank God your my girl
Cause I never met nobody quite like you, and I been all
around the world
Know we fell in love a long time ago, it still feels so
brand new,
We been through the storm and rain together
Now I can't live without you, cuz

[Chorus:]

Our love, it's a special thing
My love, I'll never leave you girl
Our love, a gift from above
My love, where would I be without
Our love, it's a special thing
My love, I'll never leave you girl
Our love, a gift from above
My love, where would I be without

Whenever I'm on the road doin' shows, I wish you were
by my side
But thank you for those e-mails baby,
When I read them I wanna cry
I know it's locked up, cuz I got the key
And I know you hold it down for me
All this hard work is for us baby
Because you loved me before I was Bobby V

[Chorus: adlibs]

Our love, it's a special thing
My love, I'll never leave you girl
Our love, a gift from above
My love, where would I be without
Our love, it's a special thing
My love, I'll never leave you girl
Our love, a gift from above
My love, where would I be without

My best friend, my lover, there's no order
(Where would I be without)
My angel, my comfort, nothin' else matters

(Where would I be without)
If I didn't have you, believe me, I'm nothing
(Where would I be without)
Your everything to me,
I always ask myself where would I be without (Where
would I be without)
Our love...

[Chorus x3: ad libs]

Our love...
My love...
Our love...
My love...
Where would I be without
Our love...
My love...
Our love...
My love...
Where would I be without
Our love...
My love...
Our love...
My love...
[Fades out]
