I can't hide my feelings inside
Cause baby we done come so far
I know you see what I've put in it
So baby give me your heart
I'll do anything and everything
To prove my love to you
We're more than physical
Baby girl we're spiritual
Don't nobody do me like you do
So,

Hold on to me
Cause I am all the man you need
In time you will see
No one's gonna do you,
No one's gonna do you like me
Stay with me, just stay with me
I am all the man,
I am all the man that you need

Wrap yourself inside my arms
Cause baby you're safe with me
Ain't no worries cause I got your back
I'll be all the superman you need
Always protect you girl
Never disrespect you girl
You don't have to think twice
I'll never do you wrong
That's why I wrote this song
Girl you have the key,
So hold on to me

Hold on to me
Cause I am all the man you need
In time you will see
No one's gonna do you,
No one's gonna do you like me
Stay with me, (stay with me)
Just stay with me (stay with me, baby)
I am all the man,
I am all the man that you need

Baby won't you stay with me
Cause I am all the man you need (stay with me)
Baby won't you stay with me (stay with me)
Cause I am all the man,
I am all the man that you need

Look into my eyes and see (stay with me)
That everything that I say girl I mean (stay with me)
Don't let a good thing pass you by
Cause I am all the man,
I am all the man that you need

(Baby) hold on to me
Cause I am all the man you need (I am all, all the man
you need)
In time you will see
Cause no one's gonna do you,
No one's gonna do you like me
Stay with me,
I said stay with me (baby)
I am all the man, (baby)
I am all the man that you need

Hold on to me (hold on to me)
Cause I am all the man you need (I'm a man that you
need babe)
In time you will see
No one's gonna do you,
No one's gonna do you like me (me, like me)
Stay with me (like me, stay with me)
Just stay with me (me & you to the end)
Cause I am all the man,
I am all the man that you need

Baby won't you stay with me
Cause I am all the man you need (stay with me)
Baby won't you stay with me (stay with me)
Cause I am all the man,
I am all the man that you need
Stay with me, stay with me
Cause I am all the man,
I am all the man
