Ft Galardo Vellz

[Chorus]

You should be in the magazine
Taking flights overseas
Walk from the runway next to me on me
She's so picture perfect, picture perfect
She's so picture perfect, picture perfect
I'm telling you I wanna give it all to her
Get to mall with her
Make her feel like a queen, give her all of my heart
She's so picture perfect, picture perfect
She's so picture perfect, picture perfect
She's so picture perfect, picture perfect

She's so picture perfect, she deserve it all, take a pic
So let's ball and ghost in the take a pic
Even if she's tall, I'll make her my size
I get lost when I'm staring down her green eyes
My hand on her thighs, she said this feeling right
Shawty I can see them looks like jewels how you shine
So I'ma make you mine, get up on your grind
Just because time's hard
Energy you tryina shine, or in the magazine
And don't nobody told you, I guess the first I be
And our swag is out, next door to planet Mars
And while we're there, me and you, we could trade
stars
She should be a model, her looks is good
Type of woman that you follow and she leads you out
the hood
She just great, and we traveling the states
She deserve it all, I ain't worrying bout spending cake

[Chorus]

You should be in the magazine
Taking flights overseas
Walk from the runway next to me on me
She's so picture perfect, picture perfect

She's so picture perfect, picture perfect

I'm telling you I wanna give it all to her
Get to mall with her
Make her feel like a queen, give her all of my heart
She's so picture perfect, picture perfect
She's so picture perfect, picture perfect
She's so picture perfect, picture perfect

Everybody wants to know, who you is
And I've been looking for you girl, where you've been?
â€¦ make me pull out my camera for
I'ma take a picture of you at my home
But for now in the vip,
And all the bad females all on me
But girl you stand out, I'm looking for no hand out
Won't you take a pic for me?

[Chorus]

Why don't you close, and take a pic?
She's just hotness, that's a fire flick
Her body max so it drive me sick
She's so picture perfect, she should be rich
She should have anything, she should live her dreams
A woman like her should do high things
Get big money, doing fly things
And big homes on the hills stunting on them lames
She's so picture perfect, man she's sick
So get up on that tv and see clear
That is you and me, so we gonna â€¦
This cash is for keeps, I'ma show her the world
Let her see that it's deep
They know you nice and that ain't hard to see
And they comic us, she's a hottie so â€¦
And I â€¦

[Chorus]

Whoa, take a pic, take a pic, take a pic
She make the ladies say
Oh yeah, take a pic, take a pic, take a pic
