[I've been a hustler and a player for a while now,  
And it's time for me to settle down now  
I've been thinking about a life with you girl  
I want a baby that looks just like you girl  
We've been off and on,  
And I'm really tired of other girls -- you're the one  
Material things don't mean nothing to you  
Without love behind it, this is it, I quit -- lets get down  
girl

I want you to know me, better to know me  
Cause baby I can see the future, you know we should  
be together  
I'm not gonna play with you  
So don't you play with me  
Let put this thing together baby, I'll leave these other  
girls alone

I want you to know me, better to know me  
Cause baby I can see the future, you know we should  
be together  
I'm not gonna play with you  
So don't you play with me  
Let put this thing together baby, I'll leave these other  
girls alone

All my friends keep hating on you girl  
But they don't know you changed the man in me girl  
I done had a lot of loves in my lifetime  
But I keep coming back to you, now I know why  
You've been down for me,  
And you had my back when danger comes around me  
You're my world, my center of gravity -- and no one  
knows me like you  
This is it, I quit -- lets get down

I want you to know me, better to know me  
Cause baby I can see the future, you know we should  
be together  
I'm not gonna play with you  
So don't you play with me  
Let put this thing together baby, I'll leave these other

girls alone

I want you to know me, better to know me  
Cause baby I can see the future, you know we should  
be together  
I'm not gonna play with you  
So don't you play with me  
Let put this thing together baby, I'll leave these other  
girls alone

I'm so serious about you and me,  
And the only thing missing on your finger is a ring  
Please believe that games are over  
It's real what I'm saying, I feel like you're my soulmate  
How could I ever do you wrong?  
I want you to know me

I want you to know me, better to know me  
I want you to know me, better to know me  
I want you to know me  
IIIIIIII -- want you to know me  
I want you to know me, better to know me  
Cause baby I can see the future, you know we should  
be together  
I'm not gonna play with you  
So don't you play with me  
Let put this thing together baby, I'll leave these other  
girls alone

I want you to know me, better to know me  
Cause baby I can see the future, you know we should  
be together  
I'm not gonna play with you  
So don't you play with me  
Let put this thing together baby, I'll leave these other  
girls alone

I want you to know me, better to know me  
Cause baby I can see the future, you know we should  
be together  
I'm not gonna play with you  
So don't you play with me  
Let put this thing together baby, I'll leave these other  
girls alone

I want you to know me  
I want you to know me  
I want you to know me  
I want you to know me  
I want you to know me  
I want you to know me

I want you to know me
