"What You Need"

Visit "[What You Need](#)" on MotoLyrics.com

I want to take you away, where you've never been,
never been
Making sweet love where the water falls, water falls
All over us at the perfect temperature, the sky so sunny
Do you hear, do you hear, the way your hips playing
If you listen close, you can hear them saying
That my eyes and my lips got something that they both
wanna do to you

[Chorus]

Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what you need
I'll be in the kitchen, in your favorite position
I'll be in the kitchen, in your favorite position
I'll be in the kitchen, come, come, come and get me
I'll be in the kitchen, come, come, come and get me

Fire, fire, candle, candle, I burn
Just enough to make it hot
I don't wanna shoot between the moon
I wanna shoot you there first
Take off, all my clothes in exchange for you
Saying sexy words in Spanish yo quiero tu
Yeah baby boy you're so mannish
So go and lay your head back let me blow this on for
you

[Chorus]

Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what you need
I'll be in the kitchen, in your favorite position
I'll be in the kitchen, in your favorite position
I'll be in the kitchen, come, come, come and get me
I'll be in the kitchen, come, come, come and get me

â€¦ bursting everywhere all over my body
Free to admit, I didn't have some good

But never like this, uuu
You're so romantic sometimes, you run away with my
mind
And what I get to you, they'll never know, they'll never
know
I'm your nurse, your masseuse, I'm your chef, cook for
you
Guess what else I've got

[Chorus]

Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what you need
Baby I got what you need, baby I got what you need
I'll be in the kitchen, in your favorite position
I'll be in the kitchen, in your favorite position
I'll be in the kitchen, come, come, come and get me
I'll be in the kitchen, come, come, come and get me
Yeah, yeah, yeah, yeah, yeah, yeah.
