[Verse 1:]
We've been through so many things
Some sad and some happy days
But we still made it thru the rain (yea yea)
If ever you feel the need
Baby jus come talk to me
Girl we can conquor anything with love
So...

[Chorus:]
Don't let nobody come between us
Cause I want to be
You and Me (forever), Me and You (together)
Don't let nobody take much baby
Cause they don't understand
I love you (forever), And we'll always be (together)

[Verse 2:]
All girls wanna be in yo shoes
That's why they talkin bout you
Behind your back cause they're not your real friends
(no, no)
So lets not worry bout that
Cause you know I got yo back
Through thick and thin, Through arguements
I still belong to you that's why

[Chorus]
Don't let nobody come between us
Cause I want to be
You and Me (forever), Me and You (together)
Don't let nobody take much baby
Cause they don't understand
I love you (forever), And we'll always be (together)

[Bridge:]
(Ya Know) To the end of time
(If You) Left me with your heart
(Don't leave me) Cause ur I'll know
Where would I be
(With out you) In my mind
(Secure me) With your tender love

(Don't Love Me) This is from my heart
It's straight from my soul don't let nobody

[Chorus]
Don't let nobody come between us
Cause I want to be
You and Me (forever), Me and You (together)
Don't let nobody take much baby
Cause they don't understand
I love you (forever), And we'll always be (together)

Don't let nobody come between us
Cause I want to be
You and Me (forever), Me and You (together)
Don't let nobody take much baby
Cause they don't understand
I love you (forever), And we'll always be (together)

We'll always be together
Can't nobody stop us baby
Don't listen to your friends
They just want to get in
With me

[Chorus till fade]
