She said it's gonna rain all night I can feel it,  
I said please don't fret I'm beside you,  
And even if the skies are not blue,  
And if the sun should fall we'll pull through,  
And even when the clouds turn grey,  
You know you've got a place to stay,

She said silly boy you just don't get it,  
If the rain falls down then let's get in it,  
There's nothing like the way you find my lips,  
When rain and thunder hit,  
She said silly boy you just don't get it,  
If the rain falls down then let's get in it,  
There's nothing like the way you find my lips,  
When rain and thunder both chime in,

I said you know I love the way we twirl in the moonlight,  
And if this is just a passing storm,  
I want you to know that you've changed my life,  
And if you had the chance to take back everything,  
Would you relive every moment we spent?

She said silly boy you just don't get it,  
If the rain falls down then let's get in it,  
There's nothing like the way you find my lips,  
When rain and thunder hit,  
She said silly boy you just don't get it,  
If the rain falls down then let's get in it,  
There's nothing like the way you find my lips,  
When rain and thunder both chime in
