It's the mask of the past and you never gona take me,
your games wont last ant you wont fuckin make me,
wear the mask of fear it's your only disguise, I see
beyond terror when I look in your eyes, gona take you
down right now, you wont know why only know how.

SMASH! through the wall.
SMASH! you lost it all.
Sore fucking head?
Are you dead yet?

When you experience fear first reaction is unite, but
eventualy youl begin to fight, so as many rules as you
broke our bones, not out for attention killing to be
alone.

WE DINE TONIGHT ON THE FLESH OF ALL WE HATE!
By the hands we create, savage beatings bring
releace, lives deplating, a tortured face.
