Oh to be where I belong  
to sleep there end of days  
to know that I had nothing wrong  
that my time was not in vain

I will find you when we'll both go back again  
I'm behind you when the light goes for an end

Let it all begin let it all begin,  
let it all begin let it begin,  
let it all..begin

Reaching ..a star tonight  
and passing round the fire  
raise your glass and raising by  
for every friend you try

To find us for could not get back again  
so will go on and we will not begin then

Let it all begin let it all begin,  
let it all begin let it begin,  
I'm gonna let it all begin  
let it all begin, we're gonna let ti all begin  
let it all..

Inside of you can take em there  
I know you can take me there  
I know you can take me there  
let it all

Let it all begin  
let it all begin,  
let it all begin
