I can't make midn before you
I dont' know which way for you to turn
I can't say when this come before you
but no one has the time for you to burn
you're such a life on fire
no one has so much more to prove
then a long time waiting
which you're almost call into girl

empty out the woods and we in..
when will still afarid to take a chance
with nothing that you'd wish for to come to
you're too afraid to say the things you dream
you were so far to ..us
something got lost away
and now no returning
but you're almost call,
you're almost call into gyrl

the ahnds were made for bleeding
and your heart was made for needing
you take that warm weather with you
don't take that warm weather with you

tell em where all the days go
show me thngs that will enver see again
tell em every thing that you ..
tell em that you're coming back again
to such a life on fire
knowing so much more with you
it's been a long time coming
but you're almost gone,
you're almost gone,
you're almost gone wynter gyrl
wynter gyrl,
winter gyrl
