Hello child  
Welcome to this world  
You've arrived  
With two feet, two hands and two eyes  
Is what you see a surprise?

You're soft and you're innocent  
You are pure and you're heaven sent  
I hope that you're sure  
Just what it is that you're in for

Your feet will learn to move in different strides  
And your hands will start to raise toward the skies  
And your eyes will open wide

And then you'll see the reason why I burst at the seams  
And I rent my clothes because there's only extremes  
There's no grey anymore  
The mob wants your soul, they'll either take it or not

They'll either take it or not

All you high and powerful ones of the earth  
You have all been granted by earth  
The invaluable decision to do whatever you will

Will you kill all the innocent ones?  
Will you invent your own religion?  
Will you give them your guns?  
Will you teach them it's a privilege to stand in front of  
your ranks?  
Will you scream? Will you rage? Will you hate?  
Will you transmit your voice on satellite with all the  
images that wake us in the middle of the night?  
Will you rule this world in horror and fright?

Or will you see it all and burst at the seams?  
Will you rent your clothes because there's only  
extremes?  
There's no grey

And innocent child, what would you die for?

You must decide before it gets too late  
Because war doesn't have a time to wait

And little boy why are you crying?  
Just wipe your tears and pick yourself up  
Because that's not what a soldier does

Hello child  
And welcome to your life  
You never thought that it'd be such a fight  
To survive and just be alright

Take your feet and run the most enduring stride  
Use your hands to lift someone towards the sky  
With your love, please open their eyes

So they can see the reason why we burst at the seams  
And they'll rent their clothes because there's only  
extremes  
There's no grey anymore  
There's no grey anymore  
There's no grey anymore  
There's no grey anymore
