(Sea Dawg)

Hands to yer halyards and batten down the hatches  
Soon we'll be in range to turn that ship to ashes  
Like a game of chess but the ocean's the table  
I'm all in the wind and bring a spring upon her cable  
Tighten yer grip  
All hands about ship  
Hot chain shot is what we're bout to transmit  
From our guns to their mizzenmast fire a blast  
Let 'em know they're outclassed and this day they  
won't  
Last.

(Chorus)

\*Sea Dawg

Let our ammunition fly  
Light up the sky  
Don't stand by  
Make the enemy die  
We fight ship 2 ship  
Equip my clip  
Soon all their sailors  
Gonna take a dip

\*Cap D

The Beats to the starboard  
The helms to the larboard  
Take are masts forward  
She's never bein' harbored  
Hard over on the wheel  
Prepare to ram  
Shards for their keels  
Their lives be damned!

(Cap D)

Clear lashings from the guns  
Set stages for battle  
We're dashing when we're done  
Bet cages we'll rattle  
Make ready, Aim steady

Bos'n Pipe to quarters  
Stakes heavy

Wakes deadly  
Rostin wicks on mortars  
Crouch if their cannons shook  
Scout for abandon crooks  
Our with yer graplin hooks  
Shout when yer weight is took  
Now crawl, overhaul  
On the deck where you'll brawl  
Don't stall, make em fall  
Comin through like a squall

(Chorus)

(Admiralty)

We're going ship to ship, let the musket-balls rip  
Our fingertips won't slip from the gat or the hatchet  
Face the facts: It's a mother-fucking boarding axe  
You've got a galleon, and I'm gonna snatch it  
Gonna start some shit, from the stern to the bowsprit  
Cos that's how we roll in her majesty's service  
Tapping ship's biscuits to shake out the rat shit  
I've got stabbing fever and you know yer gonna catch it  
I'll end your career as a buccaneer  
You live in fear to be sheared by the spears of my  
Privateers  
Clear as the tears you've been shedding for years  
Get in the beers cos we're here and our victory's near
