I hear what you're telling me but that don't make it so
Two timing talking sweet from the time your feet hit the
floor
My heart is telling me it's time to let you go
Oh baby let go...
(Chorus)
I've loved enough to know
A heartache when I see one coming
Been down this road before
I've loved enough to know
Every night out with the boys You think i'm so naive
I know excatly where you're going every time you leave
I see every little something up your sleeve
Oh baby I can see
(Chorus)
(Chorus)
