(Woah oh oh, oo woah oo woah 4x)
There's no need to take your time
Just say your words and I'll say mine
You know that I've been waiting for this day
And you're suffocating
So confusing
I just don't know what to say
And every time
I hear your voice inside my head
It's so much harder just to hear my thoughts
And I just break down, again and again
But I can tell you that it's worth it in the end
Now just lay still
It'll all be fine
But there's no need to take your time
I've gotten too far for you to say
That everything won't be okay
And you know that I've been waiting for this day
Do you believe in happy endings far, far from home?
Or do you let the real world break you and just move on?
And every time
I hear your voice inside my head
It's so much harder just to hear my thoughts
And I just break down, again and again
But I can tell you that it's worth it in the end
And every time
I hear your voice inside my head
It's so much harder just to hear my thoughts
And I just break down, again and again
But I can tell you that it's worth it in the end
(Woah oh oh, oo woah oo woah 4x)
