You see me sitting here alone
And you don't even know
That what I gave was what I had
It's so sad
That I have to be the one to tell you
You should know how everything falls into place
And it took me way too long to see
The world has left me out of luck
And I finally see how much you suck
I'm hauling to a stop
'Cause there's no point in driving on, and on, and on
Right into nowhere
We were broken from the start
I let that get to me
And now I'd be better off
If I'd never met you in the first place
Three weeks went by and now it's already August
I can't keep playing all these games
So back it up and tell me where it is that we left off
I really don't think that's too much to ask if I have to be
the one to tell you
You should know
You should know how everything falls into place
And it took me way too long to see
The world has left me out of luck
And I finally see how much you suck
I'm hauling to a stop
'Cause there's no point in driving on, and on, and on
Right into nowhere
We were broken from the start
I let that get to me
And now I'd be better off
If I'd never met you in the first place
So fuck you and fuck this burning bridge
Fuck everything you've ever said to me
I'm hauling to a stop
'Cause there's no point in driving on, and on, and on
Right into nowhere
We were broken from the start
I let that get to me
And now I'd be better off
If I'd never met you in the first place

If I'd never met you at all
If I'd never met you at all
