"Sweet"

Visit "[Sweet](#)" on MotoLyrics.com

Sweet 70's innovation
Holds the golden key to my inspiration
Free 70s generation
It's in the air I breathe at this elevation
Music now, was music then
I have a chance all over again
To make it loud, make it clear
All the distance disappears
Street felony, instigation
It's inner city heat across every station
Beat melody combinations
In every word I say
Of my conversation
I use it now, I used it then
When discotheque was my best friend

I boomed it loud, I made it clear
I rearranged my atmosphere
Sweet melody
Street felony
A New Energy
When the crowd, gets in your ear
It permeates your atmosphere
But think it loud, think it clear
Ignorance will disappear
Sweet
Sweet
Sweet
