Let's start a fight up in the bedroom  
And launch me like a missile  
Beat it up in the bedroom  
And launch me like a missile  
Go put it on the floor like you wanna give it to me now  
We can turn them low you don't really need to see me  
now  
Tell me what you saying, such a team player  
Erotic in the day, but I'ma catch you later  
I've been... and you be the model  
You be alcoholic, and I be the bottle

Oh, oh, oh, I can take you to the crib  
You ain't never gotta go  
Leave the keys in the door  
How we play behind shades, ain't nobody gotta know  
Oh, oh, oh, all night recording you, like in the studio  
I know what you wanna do, so I'ma put my glove up  
I figure for a foreplay, we gonna get our love on  
So baby meet me in the bed,  
It's all or nothing while I'm pulling on your hair  
It's crazy, in here, but I gotta say  
I love making war in your bedroom, bedroom  
I love making war in your bedroom, bedroom  
I love that  
I love making war in your bedroom, bedroom  
I love making war in your bedroom, bedroom

Let's start a fight up in the bedroom  
Launching like a missile, go and put it on the floor  
Like you wanna give it to me now  
Videos and ...but baby you professional  
Tell me what you say, your man is a looser  
He say ... cause he about to loose you  
Call you missus officer, put me in your cruiser  
Gotta load the shotgun, you can be the shooter

Oh, oh, oh, I can take you to the crib  
You ain't never gotta go  
Leave the keys in the door  
How we play behind shades, ain't nobody gotta know

Oh, oh, oh, all night recording you, like in the studio  
I know what you wanna do, so I'ma put my glove up  
I figure for a foreplay, we gonna get our love on  
So baby meet me in the bed,  
It's all or nothing while I'm pulling on your hair  
It's crazy, in here, but I gotta say  
I love making war in your bedroom, bedroom  
making war in your bedroom, bedroom  
I love that  
I love making war in your bedroom, bedroom  
making war in your bedroom, bedroom  
Oh, oh, bedroom, bedroom, oh, oh, bedroom,  
bedroom  
Oh, oh, bedroom, bedroom, oh, oh, bedroom,  
bedroom  
Making war in the bedroom, bedroom  
Making war in the bedroom, bedroom  
Go to war in the bedroom, war, war in the bedroom  
So baby meet me in the bed,  
It's all or nothing while I'm pulling on your hair  
It's crazy, in here, but I gotta say  
I love making war in your bedroom, bedroom  
making war in your bedroom, bedroom  
I love that  
I love making war in your bedroom, bedroom  
making war in your bedroom, bedroom.
