"DNA sampling sequence now in progress."

"DNA sampling sequence now in progress."

Unborn I feed on you alone
When will my soul become my own?
Soon I'll awake the world to see
Learning a false reality

"DNA sampling sequence now in progress."

I'm left with no escape
Won't live with chosen fate
Existence is a fraud
Who says we should play God?
The future is at stake
A new life to awake
A life of every wish
Perfection for the rich
Attempt to fight disease
And put our souls at ease
Programmed lethality
Destroyed mortality

"DNA sampling sequence now in progress."

Unborn I feed on you alone
When will my soul become my own?

(Soon I'll awake the world to see)
I'm left with no escape
Won't live with chosen fate
(Learning a false reality)
Existence is a fraud
How dare you play my God?

I'm left with no escape
Won't live with chosen fate
This time we are too late
There's no time left to wait
Genetic engineer
What could there be to fear?

Biotechnology
Our new theology

Created by our skill
What happened to free will?
Specific role to fill
Still not allowed to kill

(Soon I'll awake the world to see)
The future is at stake
A new life to awake
(Learning a false reality)
I'm left with no escape
Won't live with chosen fate
