I entered in your sacred place  
You wanted me to save your space  
I was a leader  
You didn't see her  
And turned what's good into your own disgrace

Then told me that I'd be all set  
And took it from me like a bet  
You are deceivers  
And I will take you down  
I will take you down  
I can take it

Deceivers, deceivers  
Deceivers, deceivers

Deceivers, deceivers  
Deceivers  
You are deceivers  
And I will take you down  
I will take you down  
I can take it

You asked to see the other side  
Are you surprised at what you find  
You had your hatred  
And couldn't fake it  
Didn't it change at all what you decide?  
You are the voices in my head  
The ones that make me think I'm dead

"Another thing... to suffer. To feel pain, joy, love,  
hate..."

Deceivers

You know that you could never say  
Deceivers  
All that you had was ripped away  
Deceivers  
And life is dead  
Here in my head

Deceivers  
I'm left with nothing but this sense of dread  
Deceivers  
So don't go try to understand  
Deceivers  
And nothing goes here quite as planned  
Deceivers  
You are deceivers  
And I will take you down  
I will take you down  
I can take it

You said you live now without fear  
The world a haven should appear  
Although I tried  
I felt denied  
Your angry thoughts just made it all so clear

So now I see you hold inside  
The secrets of your shallow pride  
You are deceivers  
And I will take you down  
I will take you down  
I can take it

It's too convenient to pretend  
Deceivers  
That your predictions never end  
Deceivers  
Let's get it straight  
I'm not a fake  
Deceivers  
It's your omission left here to create  
Deceivers  
So it should come as no surprise  
Deceivers  
That it's too late to compromise  
Deceivers  
You are deceivers  
And I will take you down  
I will take you down  
I can take it

"This can be once opened from the inside"
