Time
Enters space
Now
Is erased
Drugs
Rape the mind
Kills
All you find

In a world of disorder I lie awake
Knowing there's nothing I can do
In a world of disorder I lie awake
Knowing there's something I can do

Take
What you love
Prey
From above
Cry
As you heal
Smile
As they kneel

- I did not save this
- But we can involve and stop this

In a world of disorder I lie awake
Knowing there's nothing I can do
In a world of disorder I lie awake
Knowing there's something I can do

Run
From the fate
Curse
As they wait
Fly
As you're still
Play
At your will
