What is the pain
You'll never feel
What is the life
I'll never heal
I'll take that from your
Sacrifice
To know what grows inside

Destroyed by me
Incubated
The life that's born to die

What is the pain
You'll never feel
What is the life
I'll never heal
I'll take that from your
Sacrifice
To know what grows inside
The life that's born to die

I'll take that from you
The life that's born to die
Incubated
Sacrifice

(I can feel it moving inside)
I'll take that from you
I'll take that from you
(The life is washed away)
The life that's born to die
The life that's born to die
(Sterile and incubated)
I will create you
I will create you
(In death the life will pay)
The life that's born to die
The life that's born to die

(I can feel it moving inside)
I took that from you
I took that from you

(The life is washed away)
The life that's born to die
The life that's born to die
(Sterile and incubated)
I will create you
I will create you
(In death the life will pay)
The life that's born to die
The life that's born to die

I took that from you
I took that from you
(The life that's born to die)
I took that from you
The life that's born to die
I took that from you
The life that's born to die

What is the pain
You'll never feel
What is the life
I'll never heal
I'll take that from your
(I can feel it moving inside)
Sacrifice
To know what grows inside
The life that's born to die
The life that's born to die
(I took that from you
The life that's born to die)
I will create you
(The life that's born to die)
I will create you
(The life that's born to die)
The life that's born to die
The life that's born to die

I took that from you
I took that from you
The life that's born to die
