"Enemy"

Visit "[Enemy](#)" on MotoLyrics.com

You are your own enemy
You are your own enemy
You are your own enemy
You are your own enemy

I can see it in your eyes
The way
You hold the pain inside
Now I know
Oh, I can see it in your eyes
The way you hold the pain inside
I can see it

Creative evolution
Genetic revolution

You are your own enemy
You are your own enemy
You are your own enemy
You are your own enemy

Close your eyes
And take me in
The way you know
Is soon to change
Alive inside
The species grows
The silent fate
Will dominate
You are your own enemy

Creative evolution
I can see it in your eyes
The way
You hold
The pain
Inside
Your mind
The hate
You hold inside
Controls your mind
I see

You are your own enemy

Genetic revolution
The species grows inside your mind
Controls the pain inside

You are your own enemy
You are your own enemy

Close your eyes
And take me in
The way you know
Is soon to change
Alive inside
The species grows
The silent fate
Will dominate
You are your own enemy

Creative evolution
I can see it in your eyes
The way
You hold
The pain
Inside
Your mind
I see
The hate
Inside
It points towards me
You are your own enemy
