Lies
That you created
For too long inside they incubated
Overgrown and overworked
And overzealous gone berserk

This time
That we have wasted
Special made like wine that we had tasted
Never ripe and never good
Your purpose so misunderstood

This time
Falling back
Risk attack
All is hate
Make us wait
Recreate
Incubate
Overworked
Gone berserk
All is waste
Had a taste
Never good
Understood
Anger brews
Time to choose
Empty seed
Grown to be
Inside me
Will it leave
Or will it breed

This hate, hate, hate
That we've uncovered
Every path is leading to another
Built inside as anger cried
And can't forget that people died

Still blind, blind, blind
To human faces
Sympathy cools fast with random traces

Constant brewing racing back
And multiplied we fear attack

This time
Falling back
Risk attack
All is hate
Make us wait
Recreate
Incubate
Overworked
Gone berserk
All is waste
Had a taste
Never good
Understood
Anger brews
Time to choose
Empty seed
Darkened greed
An empty seed
Still indeed
We've all been freed

This case
Constant state forever
Daily task in numbness we persevere
Yet to teach a way to reach
Yet with remorse we stay the course

And charge
As once conflicted
Must persist and yet we are restricted
Once again enough to send a voice
To choose as anger brews

This time
That we have wasted
Special made like wine that we had tasted
Never ripe and never good
Your purpose so misunderstood

This hate, hate, hate
That we've uncovered
Every path is leading to another
Built inside as anger cried
And can't forget that people died

This time
Falling back
Risk attack

All is hate
Make us wait
Recreate
Incubate
Overworked
Gone berserk
All is waste
Had a taste
Never good
Understood
Anger brews
Time to choose
Recreate
Incubate, incubate
Incubate, incubate
Incubate, incubate
Incubate, incubate
Incubate
