A time of changing has begun  
(Already has begun)  
The leaves are fallen and undone  
(Fallen and undone)  
Inside my spirit starts to run  
(Inside you start to run)  
And all my fears are overcome  
(Fears are overcome)

I feel  
The time has come and that it's for real  
I see  
The future turn inside of me  
I find  
I'm ready to rewind  
And erase the pain that's haunted me in time

I watch the days as they fly by  
(Days as they fly by)  
The turmoil ceases to subside  
(Ceases to subside)  
Beyond the shadows freedoms hide  
(You know that we all hide)  
And now the chances have arrived  
(Chances have arrived)

I feel  
The time has come and that it's for real  
I see  
The future burst inside of me  
I find  
The need to rewind  
And replace the pain that takes what's in my mind

I can't escape  
This feeling that my world's about to break  
And I can't wait  
For all that's built inside to finally wake  
This time I know  
That what's ahead will likely overflow  
Although, my fear is bound to grow  
As time will show

I feel  
The time has come and that it's for real  
I see  
The future burst inside of me  
I find  
I'm ready to rewind  
And erase the pain that's haunted me in time

I can't escape  
The knowledge that my world is full of hate  
I can't resist  
The urge to seek out all that might exist  
As I tread on  
The world may think I'm gone  
And erase the pain that's traced what I've become  
It's all undone  
It's all undone
