I see you
And I know
What to feel inside
For the first time
And I know
What I need I have
By myself

I am someone
So stop me
So stop me
So stop me
From taking you
So stop me
From loving you
I have
All I need
By myself

For the first time
I see you
And I know
What to feel
What I need
I have
By myself,

By myself
I am someone
So stop me
From loving you
So stop me
From wanting you
I have
All I need
By myself

I am someone...
I am someone
All I need
I have
By myself

By myself
I have
All I need
So stop me
From taking you
So stop me
From loving you
I have
All I need
By myself

(And I could never feel this way again)
I am someone
(You'll never take the pain the way I did)
I am someone
(I'll never be the same again)
For the first time
I see you
(I couldn't be what I'd always wanted)
And I know
How to feel

(And I could never feel this way again)
And I know
What I need
(You'll never take the pain the way I did)
By myself
I have
(I'll never be the same again)
All I need
I know
(I couldn't be what I'd always wanted)
I am someone
For the first time
I am someone
(I couldn't be what I'd always wanted)
By myself
I am someone
I am someone
