Turn down the lights, turn up the radio
There's a fire in your eyes and it's keepin' me warm
And hold on to me like it was yesterday
When we both felt our spirits collide

I remember that moment, bein' struck down by lightnin'
The first time I saw your face and you smiled
Come and lay down with me, feel the space in between
us
Find the magic that keeps love alive

This time can be like the first time
Close your eyes and soon we'll be there
And no mind could ever guess what we're feelin'
Turn a spark to a flame, make a wish
Close your eyes, watch it start all over again

Just like the first time that you touched my skin
(All over again)
I tasted heaven, take me there again
(All over again)

Your smile, your touch, your taste
It turns me on and on and on
Then I fall in love with you all over again

Come and step through the stars
Let's take a ride through the universe
As long as we're here, let's take the whole thing in
What I'm tryin' to say is that you're so beautiful
Let me say it all over again

This time
(This time)
Can be like the first time
Close your eyes and soon we'll be there

And no mind
(No mind)
Could ever guess what we're feelin'
Turn a spark to a flame make a wish
Close your eyes, watch it start all over again

Just like the first time that you touched my skin
(All over again)
I tasted heaven, take me there again
(All over again)

Your smile, your touch, your taste
It turns me on and on and on
Then I fall in love with you

Then I fall in love with you
I keep fallin' in love with you all over again
All over again, yeah
