The moment you came home the other night  
I could tell that something wasnt right  
I asked you what the silence was about  
then all i did was listen  
While you poured your heart out

Chorus:

And then your eyes looked into mine  
and we saw forever  
was right there all the time  
when i held you in my arms  
it said all there was to say  
It should of happened that way  
It should of happened that way

Woke up again this morning  
way to soon  
wish i was fast asleep and still with you  
i'd give anything if i could feel  
how i did when i was dreaming  
i could of sworn it was real

repeat chorus

If we could have this chance again  
i only wish that we could be  
what we might have been  
I should of let you leave  
I could of made you stay

it should of happened that way  
it should of happened that way
