The sun is shining bright and the sky is blue
I am here now waiting just for you
By the time I see you oh yeah well of course I freeze
Your brown hair is lifted by a breeze

Sit with me and watch the birds fly
Cherry leaves that float on by
Feel the heat the love and desire
Move on closer and I'll show you my fire

Everytime I thought about you
I knew this dream would always stay with me
Now you're sitting here beside me
Reading some dumb magazine

Everytime I thought about you
I grew more and more certain about it
I am gonna make the world see
That I'm in love with you

Relaxing in the grass with not a worry in mind
Let's look around and see what we'll find
The summer time is nice but there is someone here
Right beside me someone I hold so dear

Sit with me and watch the birds fly
Cherry leaves that float on by
Feel the heat the love and desire
Move on closer and I'll show you my fire

Everytime I thought about you
I knew this dream would always stay with me
Now you're sitting here beside me
Reading some dumb magazine

Everytime I thought about you
I grew more and more certain about it
I am gonna make the world see
That I'm in love with you

When I thought about you
I knew this dream could come true

Heh Now you're here beside me
Reading some dumb magazine

Yes, I'll make the world see
By singing this song
It's certain that I love you
