Nonsense speaks to me so fervently
Monsters of the mind always get their way with me
Wish I may
Wish I might
Kick a hole right through the light
She said to me

Motor mama falling down again
She needs to feed
Motor mama's falling down again
She needs to see
Beauty didn't come from within

Pride spits and smiles at you today
Like it's done a million times
And does so many ways
A thirsty life whose throat runs dry
Parched by humble suicide
She says to me

Motor mama falling down again
She needs to feed
Motor mama's falling down again
She needs to see
Beauty didn't come from within

Now you bite off more than you can chew
Little motor mama
You can taste no more
Numb and dumb to light's view
Brought on by abscission
You made the wrong decision

Motor mama falling down again
She needs to feed
Motor mama's falling down again
She needs to see
Beauty didn't come from within
