Absence makes the heart grow wild
As I pretend to sit here and smile
I want someone that I can hold
Someone here when there's nowhere to go

I want someone I can see every day
Someone I can see every day
Someone here as my heart lies awake
I want someone I can see every day

To say my lips are sugar sweet
Touch me from my face to my feet
Make the rest of the world go away
I want someone I can see every day

I want someone I can see every day
Someone I can see every day
Someone here as my heart lies awake
I want someone I can see every day

Nowhere to go and nowhere to stay
I feel so far away
I'm not sure how much more I can take
I feel so far away

I want someone I can see every day
Someone I can see every day
Someone here as my heart lies awake
I want someone I can see every day

Make the rest of the world go away
I'm not sure how much more I can take
Someone here as my heart lies awake
I want someone I can see every day
