A spark of light
And all its borrowed splendor
Your gold's for fools
Your diamonds are for never

Don't come to me
With what you think I'm wanting
I would not swim
Where there is no water

Only a fool would swim
No Water
You leave me without within
No Water
Only a fool would swim
Where there is no

Only a fool would swim
No Water
You leave me without within
No Water
Only a fool would swim
Where there is no

Keep nurturing
Nurturing your nature
And naturally
Your tide keeps on changing

Only a fool would swim
No Water
You leave me without within
No Water
Only a fool would swim
Where there is no

You're free to go
I would not stop you
Tell me why should I
It's time to fly

Only a fool would swim
No Water
You leave me without within
No Water
Only a fool would swim
Where there is no

Only a fool would swim
No Water
You leave me without within
No Water
Only a fool would swim
Where there is no
Water
