

## Near Miss "Seasons"

Visit "[Seasons](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Everything around me standing still  
Down again and lost the will  
So sick again the world cries  
So you break the tears  
And you wipe the times

Lost the words, leave the light on  
Never found, still always gone  
I try not to drink it all away  
Lost the words, leave the light on  
Never found, still always gone  
Blazed again I wished it all away

Another winter day

It's been so long since I saw the sun  
Wake me up and call my name  
Every season's the same  
These are the days I truly hate  
And sunshine's never changing my faith  
I'm out of luck, it's been so long

Lost the words, leave the light on  
Never found, still always gone  
I try not to drink it all away  
Lost the words, leave the light on  
Never found, still always gone  
Blazed again I wished it all away

Another winter day
