Dear sun, don't ever leave me again
Dear moon, I hope some day we will be friends
Dear dancing lady in the park, I love the way you move
your arms
And the beauty of your shadow

Dear time, do you keep leaving me behind?
Well, I swear I must have been losing my mind
Dear dancing lady in the park, I don't know what you
did to my heart
But the truth was in your shadow

'Cause since I saw you I felt whole
Like I've never felt before
Like we we're married to the spring
Like we could do anything

Dear dancing lady in the park,
I love the way you move your arms.
